

Accessories: Centerstand Accessory Kit (10-08279)

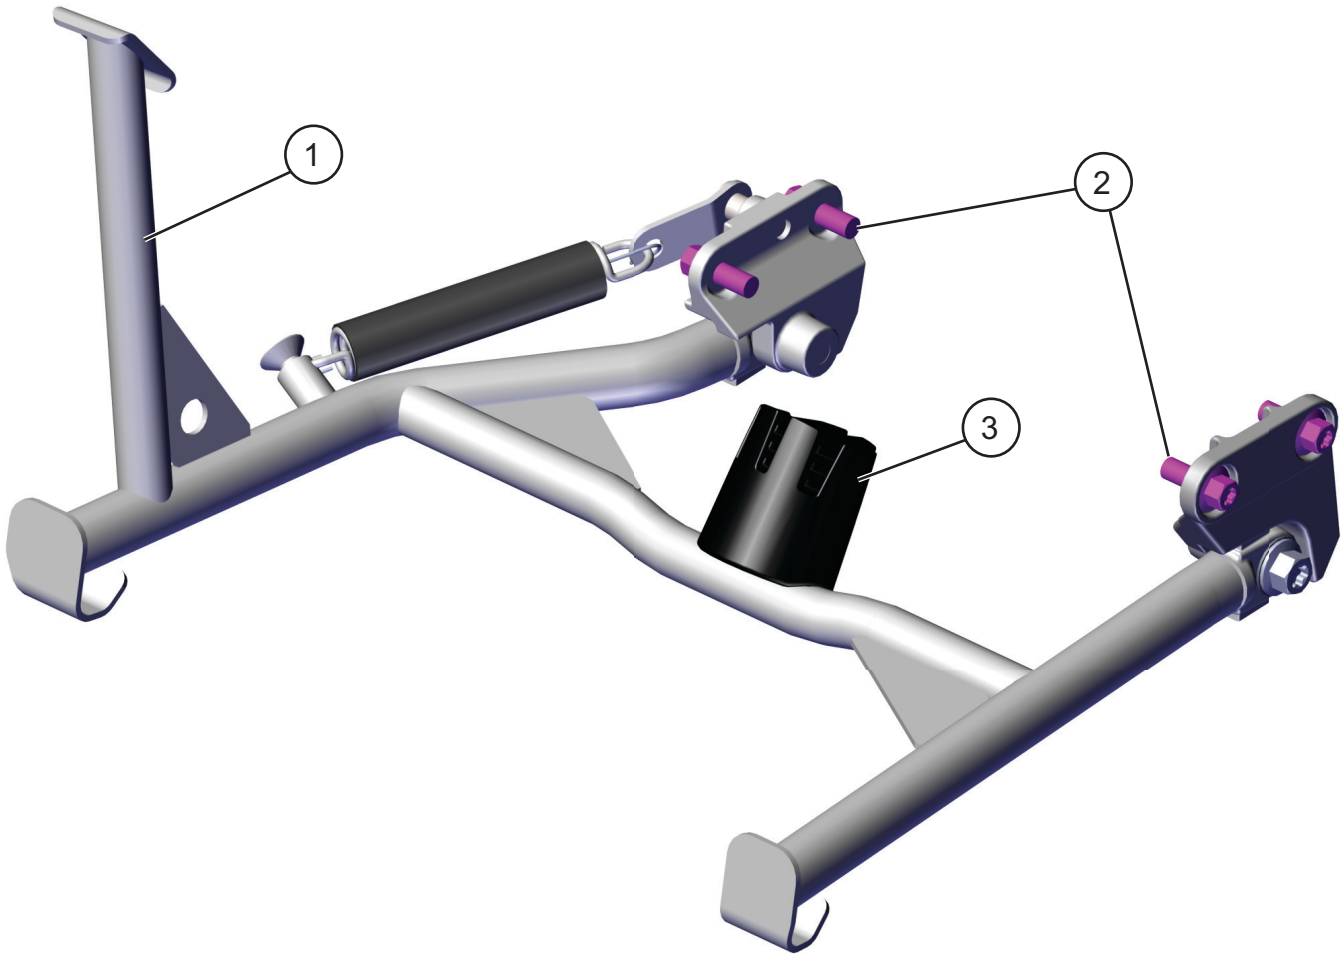

Fits Motorcycles: 23MY DSR/X

Overview

The centerstand accessory kit provides a more stable stand than the standard kickstand. Kit and installation details are included in this document.

Required Parts

Item	Part Number	Centerstand Accessory Kit (10-08279)	Quantity
1	-	Centerstand	1
2	90-08125	Hex flange bolt	4
3	26-08366	Bumper	1

Installation

1. Remove the three screws that secure the RH dust cover and remove the cover.

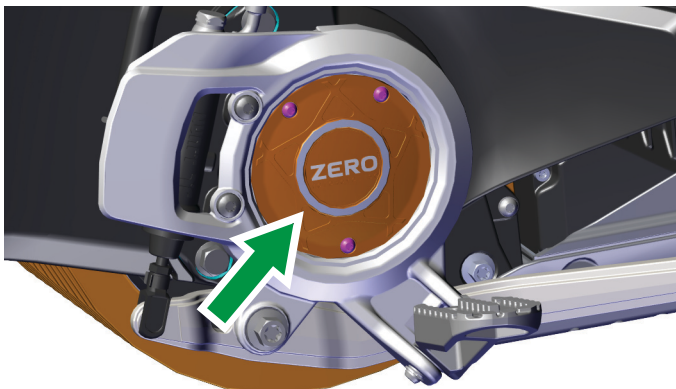

Figure 1

2. Remove the three bolts that secure the peg mount assembly.

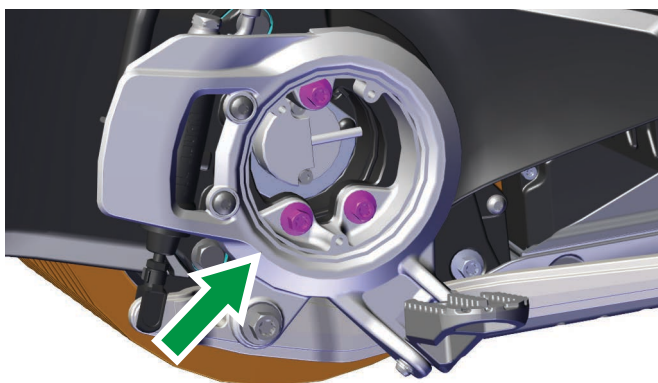

Figure 2

3. Bolt centerstand (1) to each side of the motorcycle using four bolts (2). See Figure 3 and Figure 4.

Move the peg mount assembly out of the way to gain access to the mounting pedestal on the right side of the motorcycle.

- Torque to 25 ft lb (34 Nm)

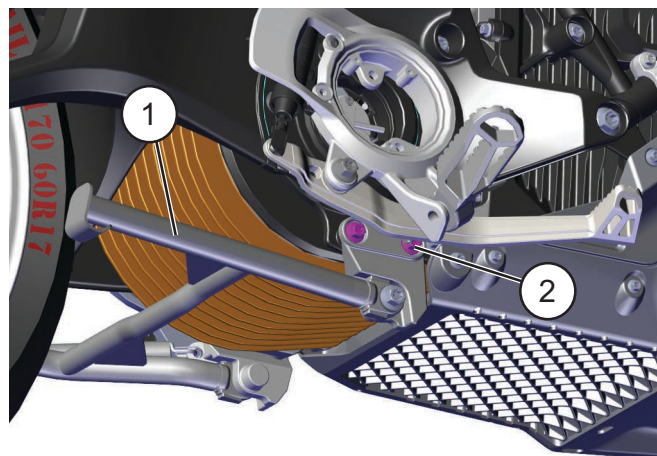

Figure 3. RH Side

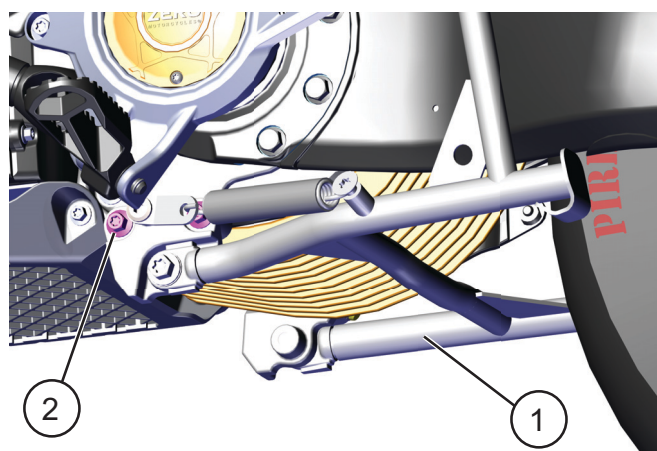

Figure 4. LH Side

4. Bolt the peg mount assembly to the chassis.
 - Torque to 25 ft lb (34 Nm)

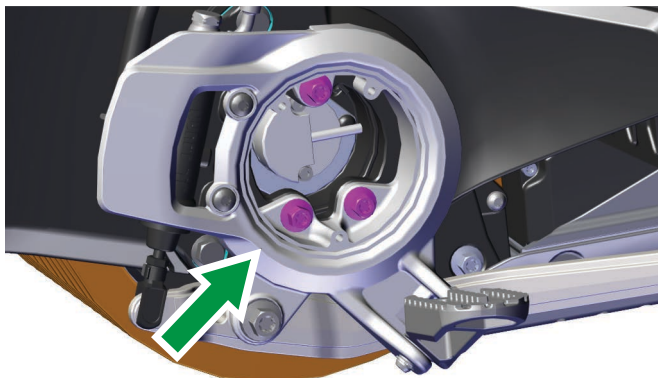

Figure 5

5. Install the dust cap.

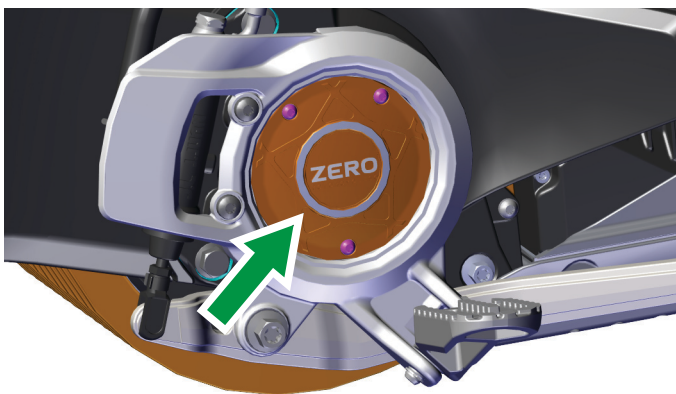

Figure 6

6. Press the bumper onto the motor fins. Make sure the bumper is centered on the cross beam in both directions.

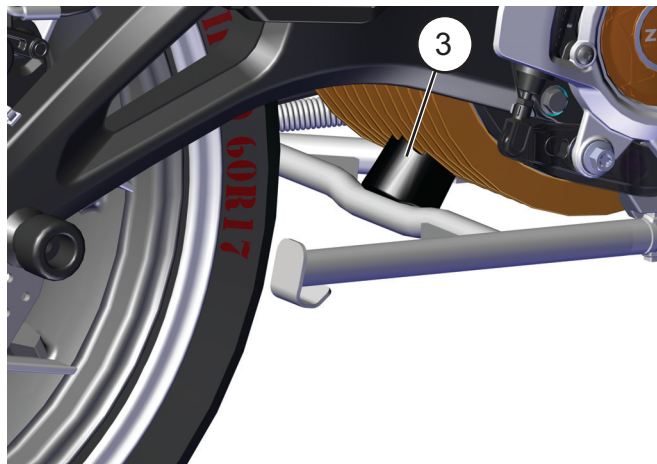

Figure 7

7. Check the operation of the centerstand and ensure it operates properly.
